

Flutter Project Guidelines

Classes CA223 and CA224

Project Description:

Develop a mobile application using Flutter for a specific use case (e.g., a company, institution, or a product). The application should be designed for both Android and iOS platforms.

Minimum Requirements:

- **Main Screen:** A main screen or homepage that links to other parts of the app, using a clear navigation structure.
- **UI Components:** Use standard Flutter widgets like **Text**, **Buttons**, **TextFields**, **ListViews**, **Container**, and custom widgets for creating UI.
- **Navigation:** Implement navigations (e.g., using **Navigator**, **Drawer**, **Bottom nav bar** and **TabBar**).
- **State Management:** Implement state management (using **providers**, **Riverpod**, **getX** or another state management solution).
- **Backend Integration:** Make sure the app connects to a backend service (e.g., **Firestore**, **MySQL**, **REST API**, or others).
- **Responsive Design:** The app should be responsive and adjust to different screen sizes.
- **Styling:** select colors, Ensure a clean and consistent UI with good use of **colors**, **typography**, and **icons**.
- **Design Tool:** Use Figma or Adobe XD or others to create high-fidelity Design.

Project Deliverables:

1. Live Application:

- Publish the app(apk) to a cloud server.
- Provide the live app link.

2. Source Code:

- Submit the complete source code in a GitHub repository or a ZIP file.

3. Project Documentation or Manual:

- Provide a brief documentation on:
 - How to use the app with screenshots.
 - Backend API integration steps (if applicable).
 - Any specific details related to the Flutter app architecture.

Important Notes:

- **Submission Deadline:** Submit the app and the source code before the project deadline.
- **Design presentation Deadline:** CA224 3-Jan 2025 while CA223 4 Jan 2025.

Additional Requirements:

- **Late submissions** will NOT be accepted.
- Ensure that you work as a team for effective collaboration.
- **Differential Grading:** Different grade will be assigned to each team member:
 1. If one team member, does it all, others may get a lower grade than the doer.
 2. If a team member doesn't work at all he/she will get a zero (0).

Grading Policy:

- 🚦 Overall graphical design and organization of your app: **5/20**.
- 🚦 Overall completeness of the app: **10/20**.
- 🚦 Code discussion: (*understanding and modifying the code for personal*): **5/20**

Project Defense Deadline

CA223 **11-Jan 2025** while CA223 **14 Jan 2025**

Good luck
